RANGE
ACTIVE SENSE

ACTIVE SENSE, an innovation for even more comfort!

ACTIVE SENSE, one of the LEBON Group's flagship innovations

LEBON is introducing its new **ACTIVE SENSE** range, the first range to offer the user **optimal comfort and guaranteed safety**. To create ever more efficient products for the user, the **Research and Development** team has designed the **ACTIVE SENSE** range, a range of protective gloves focused on **comfort for the operator**.

This innovation was born out of the desire **to increase the well-being of its users**, thereby giving the operator **easy to wear** gloves that are **comfortable** but still providing **incomparable hand protection**. Benefits of the **PU coating** new formulation are **improved resistance to wear** and **greater durability**.

So, thanks to this new innovation, **LEBON** is improving the user's working conditions and protecting them **against the mechanical risks at their workstation**.

The **ACTIVE SENSE** range offers many advantages: **these easy to wear gloves provide hand protection and comfort**. Finally, these protective gloves **keep you cleaner** and have **excellent resistance to wear**.

WHY HAND PROTECTION?

Our hands are **our most valuable tool**, being both indispensable and fragile. It is therefore imperative to protect them against various risks such as cuts, burns and bumps. Sometimes, failure to wear a protective glove can cause **irreversible damages** (causing 27% of occupational accidents*). By choosing **LEBON** protective gloves, the user is opting for **gloves that meet the highest expectations in terms of protection and compliance with the standards in force**.

COMFORT

Comfort is the operator's second selection criterion when choosing their gloves. The first being safety. Above all, the user is looking to combine optimal protection and incomparable comfort.

PROTECTED HANDS

Since they are our most valuable tool, it is imperative to protect operators' hands. This notion was what led **LEBON** to create its **ACTIVE SENSE** range.

EASY TO WEAR

LEBON has designed a glove range with the ability to protect the operator, but also to provide them with unrivalled well-being when carrying out their tasks.

OUR ACTIVE SENSE GLOVES

These black gloves have a **CLEAN PU®** coating and **ACTIVE SENSE** treatment on the palm of the hand and on the tips of the fingers as well as an elasticated wrist.

EASYFIT

Seamless knitted glove, 13 gauge in 100% high density polyethylene filament and 100% black texturized polyamide with elastane.

Black **CLEAN PU®** coating on palm and fingertips. Elastic wrist.

▶ Comfort, Grip, Dexterity

EASYFIT/SD

Seamless knitted glove, 13 gauge, in 100% high density polyethylene filament with elastane. 100% black texturized polyamide thread and carbon thread.

Black **CLEAN PU®** coating on palm and fingertips. Elastic wrist.

▶ Comfort, Grip, Dexterity

MASTERBLACK

Seamless knitted glove, 13 gauge, in 100% high density black polyethylene filament, mineral filament and 100% black texturized polyamide with elastane.

Black **CLEAN PU®** coating on palm and fingertips. Elastic wrist.

▶ Comfort, Resistance, Grip

MASTERBLACK/SD

Seamless knitted glove, 13 gauge, in 100% high density polyethylene filament, mineral filament and 100% black texturized polyamide thread and carbon thread.

Black **CLEAN PU®** coating on palm and fingertips. Elastic wrist.

▶ Comfort, Resistance, Grip

STEELFIT

Seamless knitted glove, 13 gauge, in 100% stainless steel, 100% high density polyethylene filament, mineral filament and 100% grey texturized polyamide with elastane. Black **CLEAN PU®** coating on palm and fingertips. Elastic wrist.

▶ Comfort, Resistance, Grip

CLEAN PU® TOPIC

With its own production units, **LEBON** has set up an eco-design program that combines dermatological safety and environmental safety.

Extremely mindful of its ecological footprint and its desire to reduce its impact on the environment, **LEBON** uses this new technology to increase its recycling and protect biodiversity. **LEBON's** aim is to produce its protective gloves using this revolutionary **CLEAN PU®** technology.
