

**YOUR PROTECTION  
IS IN GOOD HANDS**

## GREEN PROTECH<sup>®</sup>, a major step forward for the LEBON Group

GREEN PROTECH<sup>®</sup>, an exclusive range of protective gloves.

Discover a **complete range of seven bi-polymer protective gloves**, based on LEBON's BFR Technology coating.

This range of gloves offers the user a **high level of dexterity, a second skin effect, and has an unquestionable durability**. These protective gloves are made from an environmentally friendly aqueous base (water-based).

Our GREEN PROTECH<sup>®</sup> range is equipped with our **SCREENTECH technology**, so you can use all your touchscreen devices while wearing your gloves!

## The advantages of our GREEN PROTECH® range

- Protect the hands of users in dry, greasy and wet environments: with a **water and oil resistant** coating superior to other gloves.
- Offer **unquestionable breathability**.
- Protect the environment thanks to an **innovative water reprocessing** system that allows us to collect, treat and reuse wastewater from the glove manufacturing process.
- Benefit from a range of protective gloves that **combines performance and comfort**.
- Offer a new range of bi-polymer protective gloves without silicone

## Ensure human health & safety thanks to these certifications

With these certifications, we can guaranty that:

- GREEN PROTECH® is safe for your health and your skin.
- GREEN PROTECH® complies with two demanding international labels.
- GREEN PROTECH® is part of a sustainable development dimension.
- GREEN PROTECH® is guaranteed to be safe to use due to its effectiveness.

# A RANGE THAT COMBINES PERFORMANCE AND COMFORT!

Thanks to 3 years of research, the GREEN PROTECH® range has been developed by our R&D team in order to offer operators even higher performance gloves. GREEN PROTECH® includes a complete range of products from fine handling to level F cut protection!

GREEN PROTECH® benefits from the BFR Technology created by LEBON in 2016.

Our gloves with BFR technology feature a thinner and honeycombed bi-polymer foam coating, that gives the glove breathability and flexibility while providing strength, durability and water repellency.

**A glove that combines performance, durability and comfort.**
