

## CUT PROTECTION GLOVE LEVEL D

EN ISO 21420 4 X 4 3 D

EU regulation 2016/425 attest n°0075/057/162/04/21/0743 EXT 03/05/251 delivered by CTC, notified body n°0075

### Composition

**The MASTERSKIN combines innovative materials and functional design to offer optimum protection while maintaining great dexterity.**

**100% high density polyethylene and mineral filament:**

Provide increased resistance to cuts and abrasion while maintaining lightness and flexibility.

**100% textured polyamide yarn in green:**

Provides effective protection against engineering industry risks while offering great flexibility for precise movements.

**Black CleanPu® coating:**

The coating on the palm and fingertips provides excellent grip and increased resistance to wear, improving durability and safety when handling slippery or abrasive objects.

**Insertion of 100% carbon thread:**

Located at the tip of the thumb and index finger, this thread allows compatibility with touch screens, making it ideal for tasks requiring the use of electronic devices while maintaining maximum protection.

**Coated reinforcement between thumb and forefinger :**

To improve resistance and durability, an additional reinforcement has been placed between these two fingers, areas that are often put under strain during manual work.

**Elasticated wrist :**

Ensures a perfect adjustment and secure holding, keeping the glove in place throughout the working day, while preventing the ingress of dust or debris.

**The MASTERSKIN is ideal for work requiring fine handling of tools or sensitive parts, while offering excellent protection against cuts and other engineering industry hazards.**

### Sizes

6 - 7 - 8 - 9 - 10 - 11 - 12

### Packaging

Pack of 10 - Box of 200

Full compatibility  
with touch screens

Optimum grip for  
excellent handling  
of components

Reinforced thumb  
patch for a secure  
grip and greater  
resistance in the area

Greater comfort for  
extended wear  
without discomfort.

## Product benefits

### Enhanced durability

Thanks to a **strategic patch** between the thumb and index finger, these gloves offer **extra protection** against premature wear, extending their life, even under **intensive use**.

The black **CLEAN PU®** coating makes it exceptionally **hard-wearing** in the face of repeated rubbing, guaranteeing **sustainable performance in demanding environments**.

### Abrasion resistance

### Versatility of use

Designed for a **variety of sectors**, these protection gloves combine **resistance and comfort**. They meet the needs of professionals who require **durable protection** without compromising **freedom of movement**.

The **flexibility of the CLEAN PU®** coating means that your fingers remain **perfectly mobile**, giving you a **good tactile feel** and making it **easy to handle** even the thinnest objects.

### Dexterity and precision

### Optimum comfort

Designed to **fit the hand perfectly**, these protection gloves provide an **ergonomic adjustment**, reducing fatigue and allowing **prolonged wear without discomfort**.
